

Akash Srivastav

AVP(Product Management) - Digital Transformation

I am a curious Digital Product Manager, have been working on Generic to Customer-Centric IT products with startups to MNCs for last 10 years in all sort of Internet platforms(Web, Windows, Mobile) using various technologies. I am interested in products, because I believe in ideas, innovations and creativity, which can solve any real-time problem or make Customer's lives easier with never imagined experiences.
